familie hat zukunft

**A family program for
displaced and new
immigrant families**

Dear parents, dear families,

welcome to Hessen!

Children make life more beautiful, but they can also be a true challenge for parents. We all want what is best for our children. But a lot of things are different in Germany as to what you used in your country.

And what is really good for your child? What should you pay attention to in the education and support of your child? Surely you have many questions, which we would like to discuss with you in our seminars and get into conversation with you. You will also receive important information, for instance about the school system, and you may exchange experiences with other families.

To this we sincerely invite you to our family seminars.

The attendance is free of charge for you, and you can bring your children with you, as we have experienced educators that look after your children during the seminars.

Our issues are:

- family life
- kindergarden and school
- speaking and listening
- rights and responsibilities
- health and nutrition
- learning by playing
- mobile phone and computer
- child development
- native language and other languages
- hobbies und sports
- stress and stress reduction
... and plenty more.
